

*KASSOY'S new MICPAD500 pro tablet microscope combination allows you to see cut, clarity, and color in ways never experienced before! Impress clients with professional presentations, using outstanding optics and a new high-resolution 5mp camera with 720p HD resolution. Captured images can be measured, annotated, shared, and saved digitally. User-friendly software can be easily networked.*

*The MICPAD500 includes KASSOY's exclusive pro tablet, a trinocular stereo viewing head with magnification from 10x – 67.5x, and KASSOY's deluxe gem base. Jewelers can now easily engage with clients to show diamonds, stones and repair work using the impressive 10 inch HD viewing screen on the tablet, which is wi-fi enabled.*
